

Giving To Orphans and Vulnerable Children

The care for Orphans and Vulnerable Children (OVC) and widows is a tool of individual and community development by Denis Miki Foundation (DMF). With DMF's visits and charity sessions to these groups, they are educated, trained and taught on ways to become leaders of tomorrow, change makers and come out of poverty and gain economic empowerment. They are also provided job and volunteer opportunities with DMF in priority and are given all of our capacity building and included in our wealth-creation programs.
